

## Lyme Disease Action

Striving for the prevention and treatment of Lyme Disease and associated tick-borne diseases.

1

## Conference 2010

*This conference departs from our normal pattern of medical presentations for several reasons but mainly:*

The Influence of the Department of Health

- Few doctors will come
- Few UK experts will speak

Therefore had a choice:

- Preach to the converted or
- Learn from the converted?

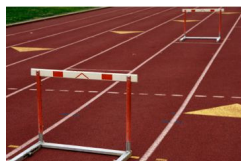

*Rather than talking about Lyme disease to patients who have read widely about it, we decided to document the problems. LDA trustees think they know what the problems and priorities are, but we need to hear from you.*

2

## Workshops

### Workshop 1 – Hurdles

- What stopped **you**?
- What tripped **you** up?

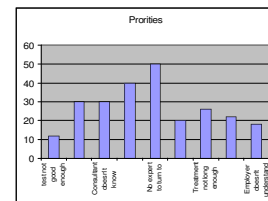

3

## Workshops

### List of Hurdles

- 
- Workshop 3 - Priorities
- what are the priorities?
  - if you could flatten 2 hurdles – which ones?

- any new ideas on what LDA could do?
